Frequently Asked Questions

WHERE DO I START?

1. Now that you have found Australian Cemetery Supplies, we can help you make the right choice.
You can either take a walk around your local cemetery and get some ideas on styles, colours etc. Taking some photos of what you like, will help. Or if you can't find what you're looking for in this book, please give us a call and we will help start the following process.

- Help you with styles, colours and material
- Design a memorial
- Help with inscription options
- Provide you with a free written quote for you to consider
- Provide you with pictures, plans and proofs of the proposed memorial and inscription that you have chosen (which you can still change at this point)
- Confirm your order
- We submit council/cemetery work application forms, and any other documentation required if applicable
- Start work on memorial foundations if required
- Erect or supply memorial

2. WHAT ARE THE PRICES

Prices can vary greatly.
From a simple grave marker to a full family monument. But as a guide for a single full covered monument is about $6,500-$8,000 on average. For a double side by side monument is roughly around $10,000-$13,000 is average. Simple grave markers vary from $1,200-$2,500 and headstones on a base average around $2,500-$4,000

3. WHICH MEMORIAL IS RIGHT FOR ME?

A very common question among customers is how to choose the 'right' memorial?
The simple answer to this is there is no right or wrong memorial design – ultimately the choice will come down to your budget, needs, tastes and possibly cemetery regulations.
Below are some important questions worth thinking about.

4. WHAT IS MY BUDGET?

How much do you want to spend on a memorial? The prices for headstones and gravestones can vary quite considerably, depending on the quality of granite and style. Generally speaking, most monuments fall within a price range of $2,500-$12,000. A good idea when initially speaking too monumental mason is to let them know what your price range is. That way they can automatically show you what range of memorials fall within your budget.

5. SINGLE OR DOUBLE MONUMENT?

This will depend on your circumstance. If the gravestone is for your partner and you wish to be buried beside them, the best option would be a double monument- as it would be cheaper than purchasing two single monuments.

6. HOW LONG AFTER THE BURIAL DO WE HAVE TO WAIT?

As soon as you're ready. If a monumental mason suggests you wait a year or so it's probably means they do not intend to construct a proper foundation. Keep in mind it also could take 1-4 months to decide and complete a monument from your first enquiry date.

7. WHAT FOUNDATIONS DO WE NEED?

Foundations depend on the type of memorial but at the very minimum we use 150mm diameter concrete piers, installed in each corner to a depth of up to 2000mm, with galvanized steel reinforcement well above the requirements set out by the Australian standards AS4204.

8. WHAT ABOUT THE QUALITY OF THE FOUNDATION?

Our work is of the highest quality, and is far above industry standards. Of course 100% guaranteed. We only use galvanised steel and reinforced mesh to strengthen the memorial and to prevent concrete cancer.

9. WHAT TYPE OF MEMORIALS ARE AVAILABLE?

Many different shapes and colours are available and it can be quite confusing. It is sometimes best to take a stroll through your local cemetery to gather an impression of the style and size you prefer.

10. WHAT MATERIALS SHOULD I CONSIDER?

Granite, Marble, Sandstone and concrete are the most common materials used. Granite being the most favoured for its durability, but a combination can reduce the cost.

11. WHAT COLOUR GRANITE IS BEST?

When thinking of a headstone the darker the colour the more inscription lettering will stand out, for example Black granite with gold gilded letters will appear brighter than if it was inscribe to a light grey granite.

12. WHAT ARE CEMETERY FEES?

Cemetery fees are paid to the cemetery/council for work done to a grave by a stonemason. The cost goes towards the administration and maintenance of the grounds.

13. WHAT SHOULD I WRITE ON THE GRAVE

Inscriptions can be as standard or as personal as you like. Just keep in mind, the length and size of text that can fit on the monument you choose.

Traditionally most inscriptions start with a heading such as:

"In loving memory of "or similar then the deceased's name.
His /her dates of birth/death
"Missed by "or "loving wife /husband to' etc
Names of his /her loved one and possibly a short personal message, a quote or verse.
Photo ceramics are also frequently included, which can instantly tell visitors of his or her personality.

14. WHAT ABOUT DIFFERENT RELIGIOUS BELIEFS?

Australian Cemetery Supplies has access to state of the art computer technology to ensure inscriptions in all languages and religious artwork can be produced.

15. CAN YOU ENGRAVE IN A FOREIGN LANGUAGE?

Yes, we can engrave in most foreign languages. We will need an exact copy of what you would like in the language of your choice. Some foreign language lettering has an additional cost because of the difficulty engraving certain characteristics, so please inquire about the price.

Granite plaques are a great alternative to bronze plaques and they can be used in many situations and applications. As pictured, granite can be used to support bronze plaques providing a neat surround.
A granite book or wedge can also be placed on a grave to mark the recent deceased if the inscription space of an existing monument is full.

Bronze Plaque Inscriptions Q and A

How many lines will fit on a plaque?
It depends on the size of the plaque - but generally a standard inscription can have up to EIGHT lines. A standard plaque is 380mm x 280mm.

How many words will fit on each line?
There is no exact number as the letters that make up a word can make a difference - for example, note how the letter 'T' takes up less space than the letter 'M' or 'W'. A good rule of thumb is 32 letters for larger characters and 42 to 48 for smaller ones.

What if the wording I want exceeds the limits?
There is much we can do in the design stage to try and make the inscription you want fit. If need be, we will make some suggestions as to how your text can be edited or abridged to fit into the standard space. If the words you want cannot be made to fit, the standard line limit can be exceeded by at least one line. On some larger plaques we can exceed the limit by as much as four to five lines. However, if you instruct us to do that an additional fee will be charged.

Can I have a cast graphic emblem on the plaque?
Yes. A flat motif (graphic emblem), is cast into the plaque and polished flat. Please refer to our extensive graphic library starting on page 53.

Can I have a military emblem?

Yes, but you will need to get permission from the Office of Australian War Graves and provide proof that the person to be remembered is entitled to the emblem.

Can I have a photograph mounted on the plaque?
Yes, but you will be required to pay an additional fee. You will need to provide a high quality photograph or digital image of the person. The better the quality of the image, the better the final result. Our office will edit and enhance the image to suit your requirements, for example we can remove the background or any blemishes. Images are then transferred to a ceramic and kiln fired.

Can I have a different size or shaped plaque?
Yes, there is a range of larger and different plaques available, including plaques that look like an open book or have attractive sculptures on them.

Is there a form where I can write the inscription?
Yes, pages 60 and 61 shows an example of what we shall send to you upon request. If you have any troubles, please call us for assistance. You can also visit our office.

Do I get to see the design before the plaque is made?
Yes, in fact we require that you authorise the design before we order it. We will send you a proof/layout for you to authorise and return to us. If you require additional copies for other family members or friends, please ask.

How long does it take to make the plaque?
It will usually take around six weeks to set, cast, finish and install the plaque.
Please contact us if you have any further questions.

Inscriptions

Inscriptions can be as standard or as personal as you like. Just keep in mind the length and size of text is in proportion to the space you have available.

Traditionally most inscriptions start with a banner such as:

In Loving Memory Of... or similar
The deceased's name
His/her dates of birth/death
Missed by or loving wife/husband to...
Names of his/her loved ones
Then a short personal message, a quote or verse
Rest In Peace

Stone Inscription Styles

We have a very large range of inscription styles and designs available to match existing inscriptions or to create new ones. Proofs and samples can be provided.

1. Bronze Lettering - A very elegant and flowing style.
2. Raised Lettering - Sandblasting is done around the letters leaving them raised. A great maintenance free method.
3. Engraved Lettering - Sandblasting into the letter space, then gilded with 22 carat gold leaf. This is a very prominent and effective style.
4. Engraved lettering - Different fonts, colours and styles can also be chosen.

Inscription Designs, Styles and Methods

Inscription Colours - Gold leaf, silver, natural, white, black or bronze.

Please note that the darker the stone colour the more the inscription lettering will stand out, for example black granite with gold gilded letters will appear brighter than if it was cut to a light grey granite.

Here are some sample photographs to help you decide what kind of layout/design you would prefer or we can also help you with some solutions.

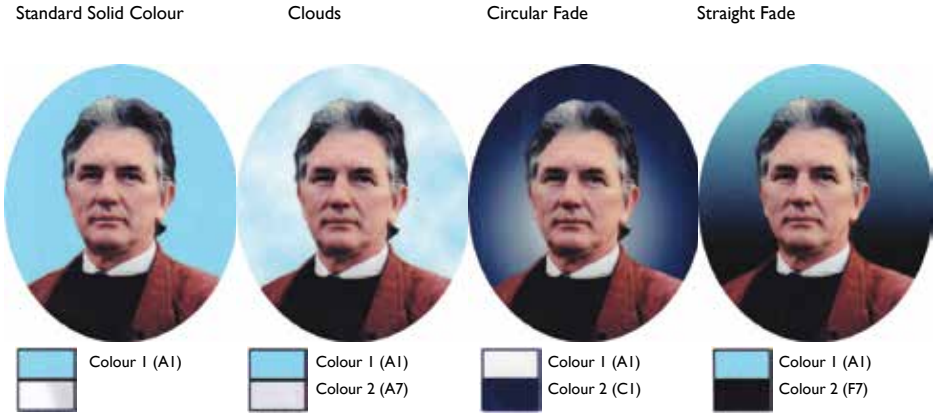
Making Ceramics
When sending us your images, please keep in mind that the quality of the image you send us will reflect the quality of the final ceramic. Please send us the biggest and sharpest image you have as enlargement reduces image quality.

Background Types
When choosing a background, if you do not specify to remove or leave the background we will use the standard solid blue background (colour A1), unless we feel the original background will suit. Please remember to specify the second colour if applicable. Leaving in the background ususally gives better results.



Colours
Please make a background colour selection by telling us the co-ordinates of the colour you would like. For example, Standard Blue is A1. Black would be F7. Remember to specify a second colour if any.

Stone Etching and Carvings - *from $150.00*

Etching/transferring images straight onto stone is a new service now available.
The amazing techniques used create an everlasting and unique image.
Stone carvings give a more 3D look and are actually hand carved into the stone with a hammer and chisel. We can transfer almost any image onto stone.
Note: the darker the stone the better the image will turn out. Black granite is the best stone for the best result.
